

Printing date 26.01.2021 Version number 7 Revision: 26.01.2021

1 Identification of the substance/mixture and of the company/undertaking

· Product identifier

· Trade name: WALLAMID KD 11

· Article number: 531082

• CAS Number: 68603-42-9 • EC number: 271-657-0

- Registration number 01-2119490100-53 (EC931-329-6)

· Relevant identified uses of the substance or mixture and uses advised against .

· Application of the substance / the mixture Emulsifier

· Uses advised against No further relevant information available.

· Details of the supplier of the safety data sheet

· Manufacturer/Supplier:

Wall Chemie GmbH

Am Selder 25

D-47906 KEMPEN

DEUTSCHLAND

Tel.: +49 2152 8999 0

E-Mail: sicherheit@wall-chemie.com

· Further information obtainable from: Safety and health group

· Emergency telephone number:

This number is serviced during office hours: +49 2152 8999 0 Giftinformationszentrum Nord 24h-information: +49 551 19240

2 Hazards identification

- · Classification of the substance or mixture
- · Classification according to Regulation (EC) No 1272/2008

GHS05 corrosion

Eye Dam. 1 H318 Causes serious eye damage.

GHS09 environment

Aquatic Chronic 2 H411 Toxic to aquatic life with long lasting effects.

GHS07

Skin Irrit. 2

H315 Causes skin irritation.

- · Label elements
- · Labelling according to Regulation (EC) No 1272/2008

The substance is classified and labelled according to the CLP regulation.

· Hazard pictograms

GHS05 GHS09

- · Signal word Danger
- · (Hazard-determining) components of labelling: 68603-42-9

Fatty acid diethanolamide

(Contd. on page 2)

Printing date 26.01.2021 Version number 7 Revision: 26.01.2021

Trade name: WALLAMID KD 11

(Contd. of page 1)

· Hazard statements

H315 Causes skin irritation.

H318 Causes serious eye damage.

H411 Toxic to aquatic life with long lasting effects.

Precautionary statements

P273 Avoid release to the environment.

P280 Wear protective gloves/protective clothing/eye protection/face protection/hearing

protection.

P302+P352 IF ON SKIN: Wash with plenty of soap and water.

P305+P351+P338 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact

lenses, if present and easy to do. Continue rinsing.

P308+P313 IF exposed or concerned: Get medical advice/attention.

P391 Collect spillage.

· Other hazards

· Results of PBT and vPvB assessment

PBT: Not applicable.vPvB: Not applicable.

3 Composition/information on ingredients

· Chemical characterisation: Substances

· CAS No. Description

68603-42-9 Fatty acid diethanolamide

Identification number(s)EC number: 271-657-0

· Additional information:

Substance name (other) / REACH:

Amides, C8-18 (even numbered) and C18-unsatd., N, N-bis(hydroxyethyl)

EC: 931-329-6 / CAS: --

· Impurities and stabilising additives:

Contains <3% of an identified impurity deriving from the process used:

2.2'-Iminodiethanol CAS: 111-42-2

4 First aid measures

- Description of first aid measures
- · After inhalation:

In case of unconsciousness place patient stably in side position for transportation.

Supply fresh air; consult doctor in case of complaints.

· After skin contact:

Immediately wash with water and soap and rinse thoroughly.

If skin irritation continues, consult a doctor.

· After eye contact:

Rinse opened eye for several minutes under running water. Then consult a doctor.

· After swallowing:

Seek medical treatment.

Rinse mouth.

Do not induce vomiting.

· Information for doctor:

· Most important symptoms and effects, both acute and delayed

No further relevant information available.

(Contd. on page 3)

Printing date 26.01.2021 Version number 7 Revision: 26.01.2021

Trade name: WALLAMID KD 11

(Contd. of page 2)

· Indication of any immediate medical attention and special treatment needed Risk of aspiration.

5 Firefighting measures

- · Extinguishing media
- · Suitable extinguishing agents:

CO2, powder or water spray. Fight larger fires with water spray or alcohol resistant foam.

- · For safety reasons unsuitable extinguishing agents: Water with full jet
- · Special hazards arising from the substance or mixture

In case of fire, the following can be released:

Organic decomposition products

Carbon oxides (COx)

Nitrogen oxides (NOx)

- · Advice for firefighters
- · Protective equipment: Use suitable breathing apparatus if necessary.

6 Accidental release measures

· Personal precautions, protective equipment and emergency procedures

Particular danger of slipping on leaked/spilled product.

Avoid contact with the eyes and skin.

Wear protective equipment. Keep unprotected persons away.

- Environmental precautions: Do not allow to enter sewers/ surface or ground water.
- · Methods and material for containment and cleaning up:

Absorb with liquid-binding material (sand, diatomite, acid binders, universal binders, sawdust). Ensure adequate ventilation.

· Reference to other sections

See Section 7 for information on safe handling.

See Section 8 for information on personal protection equipment.

See Section 13 for disposal information.

7 Handling and storage

- · Handling:
- · Precautions for safe handling

Ensure good ventilation/exhaustion at the workplace.

Open and handle receptacle with care.

Prevent formation of aerosols.

Wear protective clothing.

Do not eat, drink or smoke in working area.

- · Information about fire and explosion protection: No special measures required.
- · Conditions for safe storage, including any incompatibilities
- Storage:
- Requirements to be met by storerooms and receptacles: Store only in the original receptacle.
- · Information about storage in one common storage facility: Not required.
- · Further information about storage conditions: None.
- · Storage class: Combustible liquid.
- · Specific end use(s) No further relevant information available.

8 Exposure controls/personal protection

· Additional information about design of technical facilities: No further data; see item 7.

(Contd. on page 4)

Version number 7 Printing date 26.01.2021 Revision: 26.01.2021

Trade name: WALLAMID KD 11

(Contd. of page 3)

- · Control parameters
- Ingredients with limit values that require monitoring at the workplace:

· DNELs		
Dermal	DNEL (Long-term, systemic effects)	4.16 mg/kg/d (worker)
Inhalative	DNEL (Long-term, systemic effects)	73.4 mg/m³ (worker)
· PNECs		

PNEC 0.0024 mg/l (--) (marine water (Intermittent releases))

0.007 mg/l (fresh water) 0.0007 mg/l (seawater)

0.024 mg/l (water (intermittent release)) 830 mg/l (wastewater treatment plant)

PNEC 0.195 mg/kg (Sediment (Süßwasser))

0.019 mg/kg (sediment) 0.035 mg/kg (soil)

- · Additional information: The lists valid during the making were used as basis.
- · Exposure controls
- · Personal protective equipment:
- · General protective and hygienic measures:

Keep away from foodstuffs, beverages and feed.

Immediately remove all soiled and contaminated clothing

Wash hands before breaks and at the end of work.

Avoid contact with the eyes and skin.

Do not eat, drink, smoke or sniff while working.

The recommended specification of the protective clothing articles is to be chosen according to the duration of the exposition, the concentration and the amount of the dangerous substances at the working environment. Seek advice of the suppliers.

· Respiratory protection:

In case of brief exposure or low pollution use respiratory filter device. In case of intensive or longer exposure use self-contained respiratory protective device.

· Protection of hands:

Protective gloves

Material of gloves

e.g. Nitrile rubber, NBR

Recommended thickness of the material: ≥ 0.5 mm

· Penetration time of glove material

Minimum breakthrough time: > 120 min (Permeation according to EN 374 Part 3: level 4)

Eye protection:

Tightly sealed goggles (EN 166).

Body protection: Protective work clothing

Printing date 26.01.2021 Version number 7 Revision: 26.01.2021

Trade name: WALLAMID KD 11

	(Soma Sipa,
Physical and chemical propertie	ne.
Friysical and Chemical propertie	
· Information on basic physical and che	mical properties
· General Information	
· Appearance:	FI.:4
Form: Colour:	Fluid Yellowish
· Odour:	Characteristic
· Odour threshold:	Not determined.
· pH-value (10 g/l) at 20 °C:	9.0-11.0
· Change in condition	
Melting point/freezing point:	Undetermined.
Initial boiling point and boiling range	: Undetermined.
· Flash point:	Undetermined.
· Flammability (solid, gas):	Not applicable.
Decomposition temperature:	Not determined.
· Auto-ignition temperature:	Not determined.
· Explosive properties:	Product does not present an explosion hazard.
· Explosion limits:	
Lower:	Not determined.
Upper:	Not determined.
· Vapour pressure:	Not determined.
· Density at 20 °C:	0.99 g/cm ³
· Relative density	Not determined.
· Vapour density	Not determined.
· Evaporation rate	Not determined.
· Solubility in / Miscibility with	
water:	Dispersible.
· Partition coefficient: n-octanol/water:	Product is an emulsifier.
· Viscosity:	
Dynamic at 20 °C:	800 mPas
Kinematic:	Not determined.

No further relevant information available.

10 Stability and reactivity

- · Reactivity Product is stable under normal ambient conditions.
- · Chemical stability

Other information

· Thermal decomposition / conditions to be avoided:

No decomposition if used according to specifications.

- · Possibility of hazardous reactions No dangerous reactions known.
- · Conditions to avoid No further relevant information available.
- · Incompatible materials: No further relevant information available.
- · Hazardous decomposition products: No dangerous decomposition products known.

Printing date 26.01.2021 Version number 7 Revision: 26.01.2021

Trade name: WALLAMID KD 11

(Contd. of page 5)

11 Toxicological information

- · Information on toxicological effects
- · Acute toxicity Based on available data, the classification criteria are not met.
- · LD/LC50 values relevant for classification:

Oral LD50 >2,000 mg/kg (rat)
Dermal LD50 >2,000 mg/kg (rat)

- Primary irritant effect:
- · Skin corrosion/irritation

Causes skin irritation.

· Serious eye damage/irritation

Causes serious eye damage.

- · Respiratory or skin sensitisation No sensitising effects known.
- · Additional toxicological information:
- · CMR effects (carcinogenity, mutagenicity and toxicity for reproduction)
- · Germ cell mutagenicity no data
- · Carcinogenicity no data
- · Reproductive toxicity no data
- · STOT-single exposure no data
- · STOT-repeated exposure no data
- · Aspiration hazard no data

12 Ecological information

· Toxicity

 Aquatic toxicity: 	
EC50	3.9 mg/l (alga) (72 h (nominal) / REACH Dossier)
	3.2 mg/l (daphne) (48 h (nominal) / REACH Dossier)
LC50	2.4 mg/l (fish) (96 h (nominal) / REACH Dossier)
chronic NOEC / ECx	0.3 mg/l (alga) (72 h (nominal) / REACH Dossier)
	0.07 mg/l (daphne) (21d / 0,1mg/l (nominal)/ REACH Dossier)
	0.32 mg/l (fish) ((REACH dossier))

Persistence and degradability

These surfactants comply with the biodegradability criteria as laid down in Regulation (EC) No. 648/2004 on detergents. Data to support this assertion are held at the disposal of the competent authorities of the Member States and will be made available to them, at their direct request or at the request of a detergent manufacturer.

readily biodegradable

Degradation rate >90% Time (d) 28 days Method OECD 301B

- · Behaviour in environmental systems:
- · Bioaccumulative potential No further relevant information available.
- · Mobility in soil No further relevant information available.
- · Additional ecological information:
- · General notes:

Water hazard class 2 (German Regulation) (Assessment by list): hazardous for water Do not allow product to reach ground water, water course or sewage system.

Danger to drinking water if even small quantities leak into the ground.

- · Results of PBT and vPvB assessment
- · **PBT**: Not applicable.
- · vPvB: Not applicable.
- · Other adverse effects No further relevant information available.

(Contd. of page 6)

13 Disposal considerations

- · Waste treatment methods
- · Recommendation

Can be burned with household garbage after consulting with the waste disposal facility operator and the pertinent authorities and adhering to the necessary technical regulations.

· Waste disposal key:

Determine wastes code in compliance with local waste management company according the European Waste Catalogue (EWC).

- · Uncleaned packaging:
- · Recommendation: Disposal must be made according to official regulations.
- · Recommended cleansing agents: Water, if necessary together with cleansing agents.

Uses advised against

No uses advised against are identified.

Exposure controls / personal protection

Appropriate engineering controls: Provide exhaust ventilation or other engineering controls to keep the airborne concentrations of vapors below their respective threshold limit value.

ENVIRONMENTAL EXPOSURE CONTROLS:

Emissions from ventilation or work process equipment should be checked to ensure they comply with the requirements of environmental protection legislation. In some cases, fume scrubbers, filters or engineering modifications to the process equipment will be necessary to reduce emissions to acceptable levels.

Stoffsicherheitsbericht Amides, C8-18 (even numbered) and C18-unsatd., N,N-bis(hydroxyethyl) Seite 14/14

INDIVIDUAL PROTECTION MEASURES:

Respiratory protection: Use appropriate respiratory protection if there is the potential to exceed the exposure limit(s).

Eye/face protection Optional face shield;

Eye protection with chemical goggles.

Skin protection Substance/task appropriate gloves;

Skin coverage with appropriate barrier material based on potential for contact with the chemicals
