#### **3 Composition/information on ingredients**

· Chemical characterisation: Substances

- · CAS No. Description
- 68439-50-9 fatty alcohol polyglycolether
- · Identification number(s)
- · EC number: Polymer

· Additional information: Polymers are exempted from registration obligation under REACH.

## 4 First aid measures

- · Description of first aid measures
- · After inhalation: Supply fresh air; consult doctor in case of complaints.
- · After skin contact: Immediately wash with water and soap and rinse thoroughly.
- · After eye contact:
- Rinse opened eye for several minutes under running water. Then consult a doctor.
- After swallowing: Seek medical treatment. Rinse mouth. Do not induce vomiting.
- Information for doctor:
- Most important symptoms and effects, both acute and delayed No further relevant information available.
- Indication of any immediate medical attention and special treatment needed Risk of aspiration.

#### **5 Firefighting measures**

- · Extinguishing media
- · Suitable extinguishing agents:
- CO2, powder or water spray. Fight larger fires with water spray or alcohol resistant foam.
- · For safety reasons unsuitable extinguishing agents: Water with full jet
- Special hazards arising from the substance or mixture In case of fire, the following can be released: Organic decomposition products Carbon oxides (COx)

### Safety data sheet according to 1907/2006/EC, Article 31

Version number 6

Revision: 15.01.2021

(Contd. of page 2)

#### Trade name: WALLOXEN LM 50

- · Advice for firefighters
- Protective equipment: Use suitable breathing apparatus if necessary.

#### 6 Accidental release measures

- Personal precautions, protective equipment and emergency procedures
   Particular danger of slipping on leaked/spilled product.
   Wear protective clothing.
   Avoid contact with the eyes and skin.

   Environmental precautions:
   Do not allow to enter sewers/ surface or ground water.
   Inform respective authorities in case of seepage into water course or sewage system.
- Methods and material for containment and cleaning up:
- Absorb with liquid-binding material (sand, diatomite, acid binders, universal binders, sawdust).
- Reference to other sections
   See Section 7 for information on safe handling.
   See Section 8 for information on personal protection equipment.
   See Section 13 for disposal information.

#### 7 Handling and storage

- · Handling:
- **Precautions for safe handling** Open and handle receptacle with care.
- Wear protective clothing.

Do not eat, drink or smoke in working area.

- · Information about fire and explosion protection: No special measures required.
- · Conditions for safe storage, including any incompatibilities
- · Storage:
- Requirements to be met by storerooms and receptacles: Store only in the original receptacle.
- · Information about storage in one common storage facility: Not required.
- Further information about storage conditions: None.
- Storage class: Combustible liquid.
- · Specific end use(s) No further relevant information available.

#### 8 Exposure controls/personal protection

- · Additional information about design of technical facilities: No further data; see item 7.
- · Control parameters
- · Ingredients with limit values that require monitoring at the workplace:
- Additional information: The lists valid during the making were used as basis.
- · Exposure controls
- · Personal protective equipment:
- · General protective and hygienic measures:
- Immediately remove all soiled and contaminated clothing Wash hands before breaks and at the end of work.
- Avoid contact with the eyes.

Do not eat, drink, smoke or sniff while working.

The recommended specification of the protective clothing articles is to be chosen according to the duration of the exposition, the concentration and the amount of the dangerous substances at the working environment. Seek advice of the suppliers.

• Respiratory protection: Not required.

Version number 6

Revision: 15.01.2021

(Contd. of page 3)

#### Trade name: WALLOXEN LM 50

· Protection of hands:

Protective gloves

• Material of gloves

e.g. Nitrile rubber, NBR

- Recommended thickness of the material:  $\geq$  0.5 mm
- Penetration time of glove material
- Minimum breakthrough time : > 120 min (Permeation according to EN 374 Part 3: level 4)

Tightly sealed goggles (EN 166).

· Body protection: Protective work clothing

## **9 Physical and chemical properties**

Information on basic physical and cher     General Information	nical properties
· Appearance:	
Form:	Liquid
Colour:	Colourless
· Odour:	Characteristic
· Odour threshold:	Not determined.
· pH-value (10 g/l) at 20 °C:	6.0 - 7.5
	0.0 - 7.5
<ul> <li>Change in condition</li> </ul>	
Melting point/freezing point:	Undetermined.
Initial boiling point and boiling range	: Undetermined.
· Flash point:	> 150 - 160 °C (DIN 51376)
· Flammability (solid, gas):	Not applicable.
· Decomposition temperature:	Not determined.
· Auto-ignition temperature:	Not determined.
· Explosive properties:	Product does not present an explosion hazard.
· Explosion limits:	
Lower:	Not determined.
Upper:	Not determined.
· Vapour pressure:	Not determined.
· Density at 20 °C:	0.957 g/cm <sup>3</sup>
· Relative density	Not determined.
· Vapour density	Not determined.
· Evaporation rate	Not determined.
· Solubility in / Miscibility with	
water:	Partly miscible.
	Gel formation possible.
· Partition coefficient: n-octanol/water:	Product is an emulsifier.
	Not determined.

 Viscosity: Dynamic at 20 °C: Kinematic:

30 mPas Not determined.

· Other information

No further relevant information available.

# **10 Stability and reactivity**

- · Reactivity Product is stable under normal ambient conditions.
- · Chemical stability
- $\cdot$  Thermal decomposition / conditions to be avoided:
- No decomposition if used according to specifications.
- $\cdot$  Possibility of hazardous reactions No dangerous reactions known.
- Conditions to avoid No further relevant information available.
- Incompatible materials: No further relevant information available.
- · Hazardous decomposition products: No dangerous decomposition products known.

#### **11 Toxicological information**

- · Information on toxicological effects
- Acute toxicity Based on available data, the classification criteria are not met.
- LD/LC50 values relevant for classification: According to CESIO-recommendation 03/2017.
- Oral LD50 >2000 mg/kg (rat)
- · Primary irritant effect:
- · Skin corrosion/irritation

According to CESIO-recommendation 03/2017. No irritating effect.

- Serious eye damage/irritation According to CESIO-recommendation 03/2017. Causes serious eye damage.
- · Respiratory or skin sensitisation No sensitising effects known.
- Additional toxicological information:
- $\cdot$  CMR effects (carcinogenity, mutagenicity and toxicity for reproduction)
- · Germ cell mutagenicity no data
- · Carcinogenicity no data
- · Reproductive toxicity no data
- · STOT-single exposure no data
- · STOT-repeated exposure no data
- · Aspiration hazard no data

# **12 Ecological information**

- · Toxicity
- Aquatic toxicity:
- According to CESIO-recommendation 03/2017Acute 1, M = 1
- chronic NOEC / ECx ≥0.14 mg/l (alga) (CESIO 10/2015)

#### · Persistence and degradability

readily biodegradable

These surfactants comply with the biodegradability criteria as laid down in Regulation (EC) No. 648/2004 on detergents. Data to support this assertion are held at the disposal of the competent authorities of the Member States and will be made available to them, at their direct request or at the request of a detergent manufacturer.
